

MEDICAL LICENCE POLICY

Taekwondo Europe will introduce as of 2019 a new policy with regard to Medical staff of teams participating at Taekwondo Europe sanctioned and promoted events (including all European G1 events). In order to verify that the accredited medical staff are indeed educated and trained medical experts, the Taekwondo Europe Medical Licence is introduced.

Medical Doctors, physio therapists and all other supporting medical staff have to apply for a Taekwondo Europe Medical Licence via www.worldtaekwondoeurope.org and fill out the online application form. All credentials (university diploma's or other supporting documents) have to be sent to Taekwondo Europe in order to determine whether or not a Medical Licence can be issued. All university diploma's and other supporting documents that are not in the English language needs to be translated by an official translator authorized to legalize the translations.

Only Medical staff in the possession of a valid Taekwondo Europe Medical Licence are eligible for a Taekwondo Europe Accreditation card at Taekwondo Europe sanctioned and promoted events. A Medical Licence will cost 50 euro per year and shall be renewed annually.
